# TECHNOSYSTEMS

"Creativity and innovation" at every step has been the catalyst of our growth and has enabled us to add value to our customers through Precision Machined components of Graded Castings.

**TECHNOSYSTEMS** an ISO 9001 Company is established as a partnership concern in 1986. With continuous up gradation the company now has a well equipped Foundry, state of the art Machining set up, In-house design capabilities and advanced testing equipments. We are single source vendor for critical components to the biggest Two and Three wheeler Automobile Manufacturer and exporter of India. We supply 7.5 million components annually with small as well as large batch quantities of different variety. We also manufacture precision components for Pump manufacturing multinationals. We are consistently recognized by our customer for our Quality and On time delivery.

**TECHNOSYSTEMS** in its Endeavour to ensure high quality output is practicing TPM activity, Continuous skill and knowledge up gradation to maximize operational efficiency and achieve business excellence.
